

# Central Management System

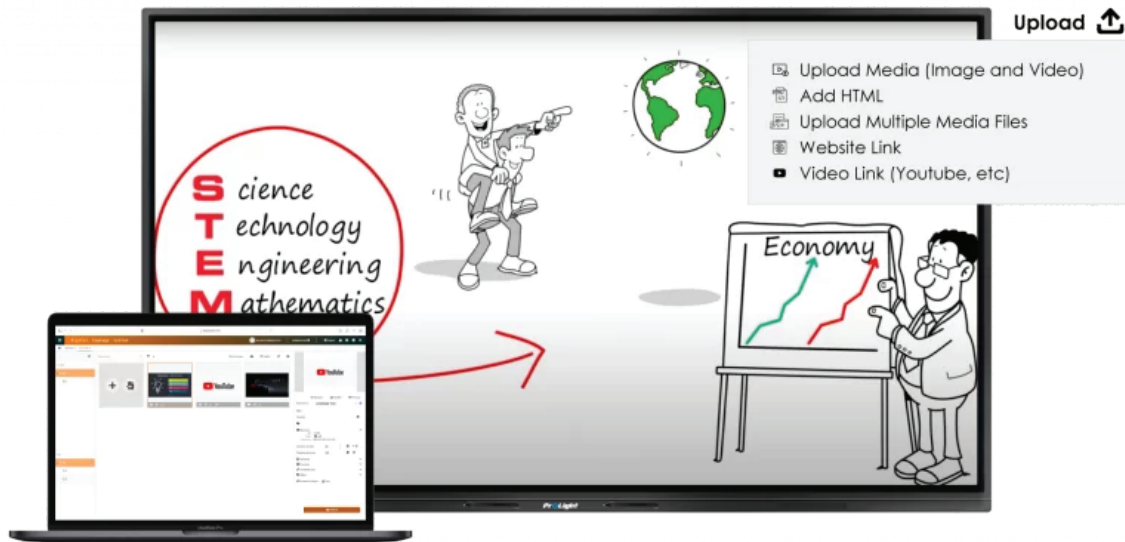

Transforming projection to communication

# Central Management System (CMS)

Central Management System (CMS) with Interactive Display for complete device control.

Central Management System (CMS) allows education and businesses to configure the interactive display and tailor real-time messaging.

## Alerts & Announcements

Alert multiple devices of an emergency situation at the same time.

## App Management

Install, deploy, and even uninstall apps from the panel.

## Device Management

Manage all of your ProLight displays remotely and spend less time going from display to display.

## Live Broadcast

Broadcast in real-time over the internet.

## Digital Signage

Bring content to your interactive displays with ease.

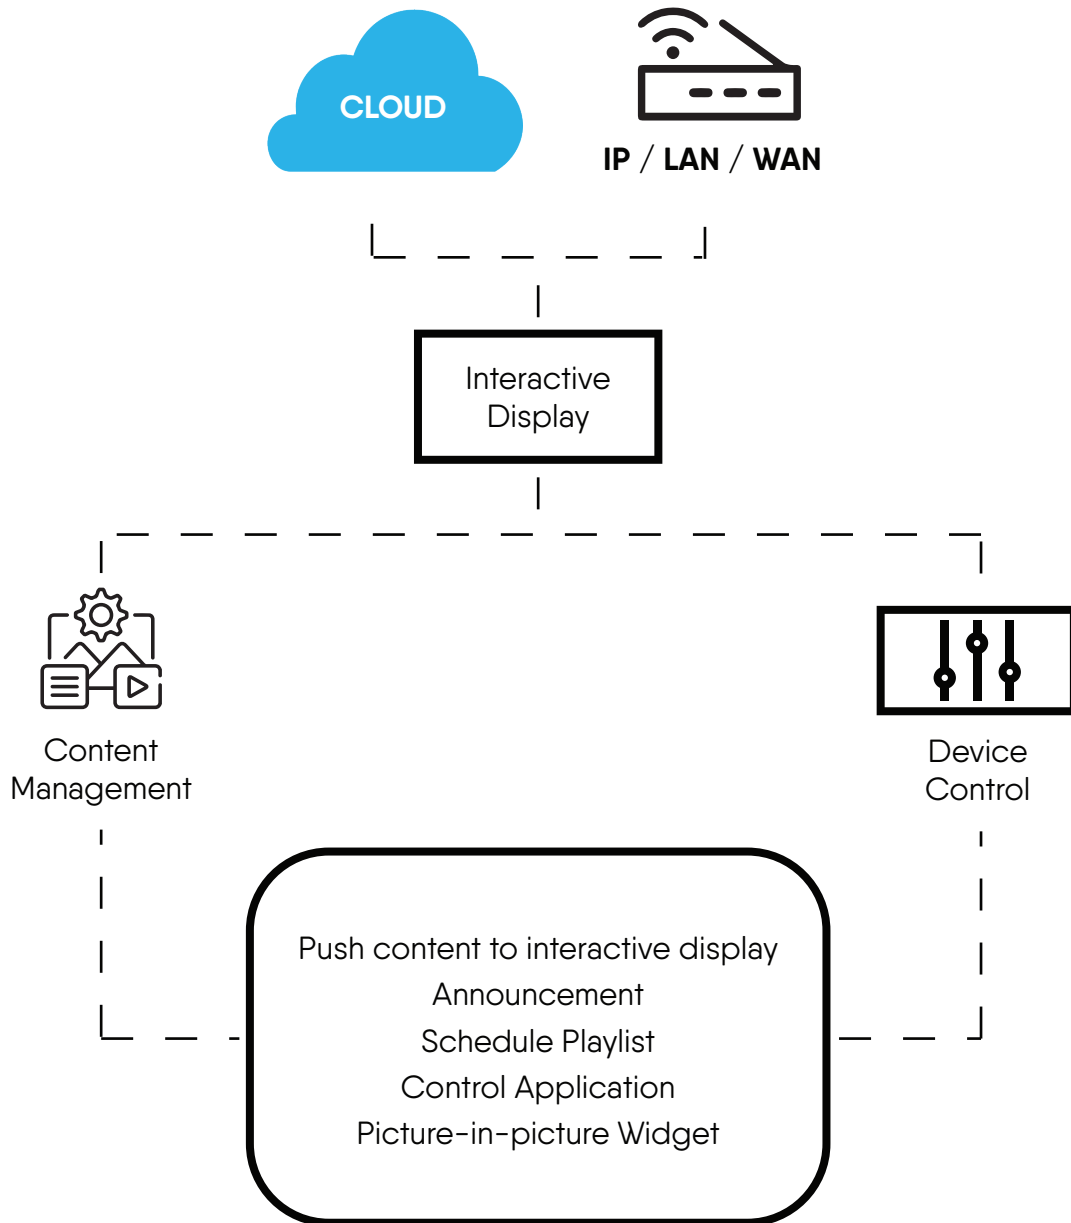

## Playlist Scheduling

Preschedule for repeat or one-time play. The screens update within seconds!

# Central Management System (CMS)

## Cloud-Based

No need to install software to your PC or have your own dedicated server. Our cloud-based CMS portal can be accessed instantly from anywhere in the world.
